Why do we need pipes?

What is “Zero” and “Layer Zero”? 

Zero: 
existing but not clearly visible or not being paid much attention

Layer Zero: 
network cabling
Something in common - "Zero" & "Layer Zero"

Challenge to create a world with no language barriers
Knowledge/network broaden by data transmission & information exchange

As if

TOKYO 2020

@PTCouncil #PTC19

PTC’19 FROM PIPES TO PLATFORMS
20-23 January 2019 | Honolulu, Hawaii
Prevent the loss of many precious lives by submarine cable lay
Installation & Maintenance of *pipes* for sustainable *platform*

*Cable Ships*

major players in submarine cable
Our challenges for a new cable ship

Cable ship itself can perform as a platform

For both telecom & power cable

“CS KDDI Cable Infinity” in 2Q 2019
Betterment of everything for everyone on the globe

“What is essential is invisible to the eyes” by Le Petit Prince

BUT

Betterment of community, society, economy, education & life for humankind is built on this.
