

AEC-2 Havfrue:

Delivering Secure, Resilient Trans- Atlantic Capacity

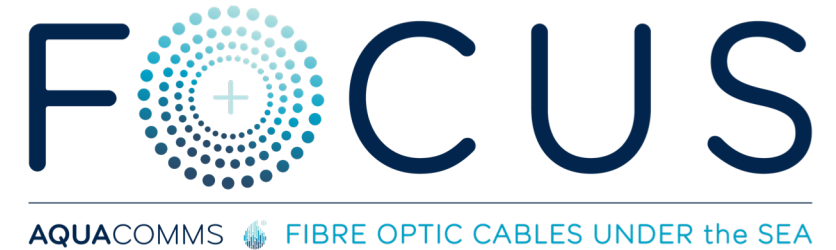

Mike Sauer

VP Americas Partner & Federal

Aqua Comms

Who We Are

Solid Financial Partners

Aqua Comms is a private company backed by solid financial partners including Aqua Ventures International, Cartesian Capital Group and the Irish Strategic Investment Fund

Combined assets under management of \$12+ billion

Diverse and complementary experiences to lead future growth

The company has secured a solid financial platform and partners to drive future success with anticipated expansion plans

The long-term alignment of business objectives will allow the company to grow in an opportunistic and accretive basis for all stakeholders with the goal of achieving best-in-class customer experience and satisfaction

What We Do

We FOCUS on:

- Subsea Networks
- The North ATLANTIC market only

We DELIVER:

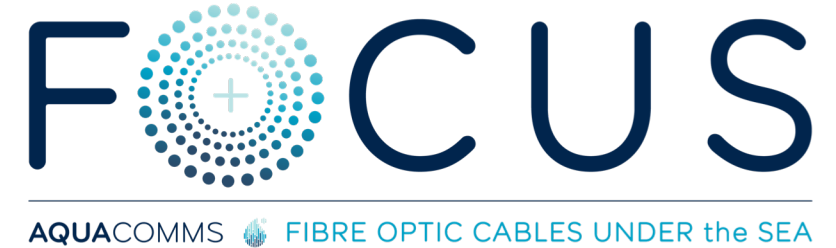

- High-bandwidth Transport-layer services across the Atlantic
- From 1 year leases to 20 year IRUs

We OPERATE:

- As a Carriers' Carrier; we are independent, neutral and only sell in the Wholesale space
- Networks we built and own that allows us to deliver your services in as little as 72 hours

This is all we do

This FOCUS makes us Unique in the market and your ultimate Partner for your Atlantic network needs

AEC-2 – HavFrue

America-Europe Connect-2 (AEC-2) RFS date Q4 2019

AQUACOMMS

AEC-2

The AEC-2 system, together with existing systems owned and operated by Aqua Comms, will create a resilient, diverse loop-based system between the US, Ireland and Europe

The AEC-2 services will utilize carrier-neutral interconnection points, offering a Manhattan bypass route increasing diversity & resiliency in the region

In Europe, the services will be offered from all landing stations and carrier-neutral, metro area Points of Presence (PoPs) in Ireland, the UK and Northern Europe

AEConnect Trans-Atlantic Cable Network
