

5G and Wi-Fi 6: What's Important Now

PHIL OLIVERO, Chief Technology Officer
Lightpath

Lightpath

Lightpath is revolutionizing how organizations connect to their digital destinations by combining our next-generation network with our next-generation customer service.

For over 30 years, thousands of enterprises, governments, and educators have trusted Lightpath for their mission-critical connectivity needs - on the Lightpath all-fiber network with over 18,000 route miles serving over 12,000 locations.

- Lightpath's next-generation, all-fiber network offers the latest optical and packet technologies from Ciena and Cisco, respectively.
- Our consultative customer service means we work with customers to custom-design, deliver, and support the solution for their unique needs, faster and more easily than ever before.
- Lightpath operates its 18,000+ route mile, all-fiber network throughout Metropolitan New York City (NY, NJ, CT) and in Metropolitan Boston (new market entrance 6/2021).
- Learn how Lightpath can connect your organization to its digital destinations by visiting www.lightpathfiber.com

PHIL OLIVERO

- Phil was appointed Chief Technology Officer of Lightpath in March 2021.
- Prior to Lightpath, Phil served as CTO of the Fiber Services division at Crown Castle, and also served as CTO of Lighttower Fiber Networks.
- At Lightpath, Phil led the company's network transformation to state-of-the-art Ciena and Cisco equipment and technologies, that now afford Lightpath competitive advantages - one example being wavelength service offerings up to an incredible 800 Gbps.
- Phil studied at the University of Waterloo and holds a Bachelor of Applied Science in Electrical Engineering.
- For years, Phil also served as the emergency goalie for the Washington Capitals hockey team in the NHL.
