

Brian Daniels

Chief Sales Officer

- Leads a team of Zayo's experts focused on Long Haul Fiber, Global and Low Latency Networks, E-Rate and Mobile Infrastructure.
- Holds a B.S. in business administration from the University of Colorado and an MBA from the University of Louisville.
- Fun fact, Brian played professional football for the Minnesota Vikings.

Digital Acceleration is driving exponential network demands

Adoption of cutting-edge technology...

Automation 5G

AI Blockchain
Microservices

Computer Vision

Demands a new approach to IT

From:

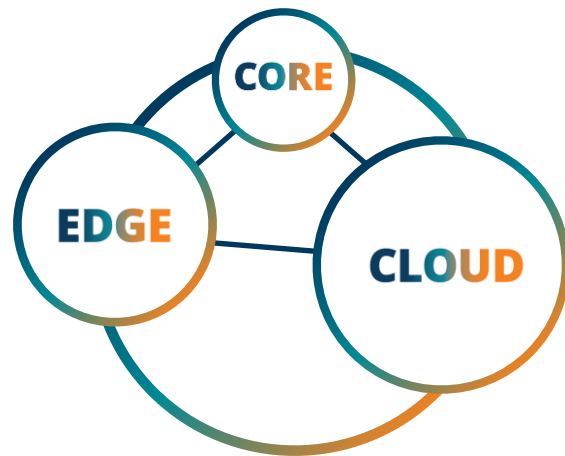

Traditional data-center centric, monolithic applications

To:

Event-driven architectures, built with microservices, spread across edge infrastructure, core data centers, and multiple clouds.

Security, resilience, efficiency, and cost effectiveness are table stakes.

Seamless connection dictates success
