A new digital era

**Digital everywhere,
for everything & everyone**

e-manufacturing ... virtual desktop, video conferencing...

Latency is the new currency

mobility, connected car ... live streaming, online gaming, e-learning, e-health...

New core mission of the interconnection industry

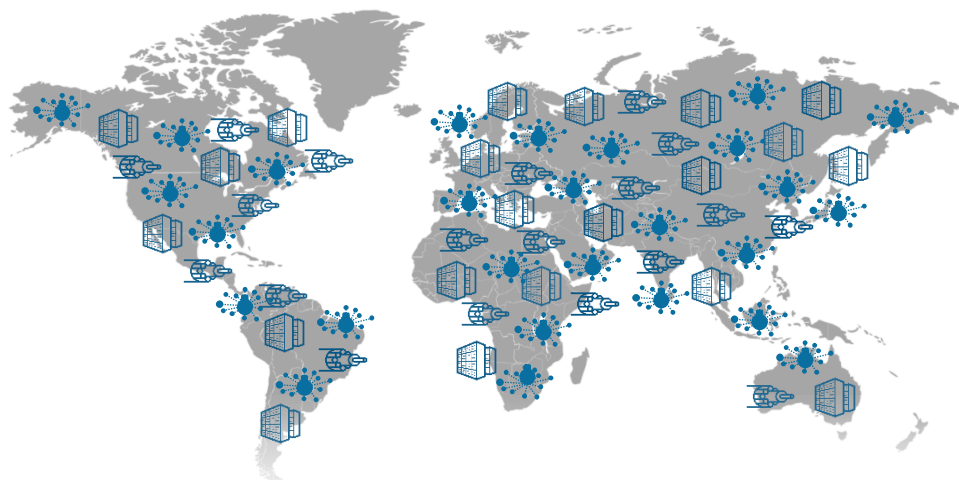

Bringing digital applications & content closer to people & business

DE-CIX strategy based on these new digital requirements

Densification of the interconnection infrastructure

More distributed, independent, resilient,
secured and performant ecosystems

Diversification of the interconnection services (enterprises)

More workloads, more vertical specific applications -
easier to use & operate
