------------	--

Our Mission

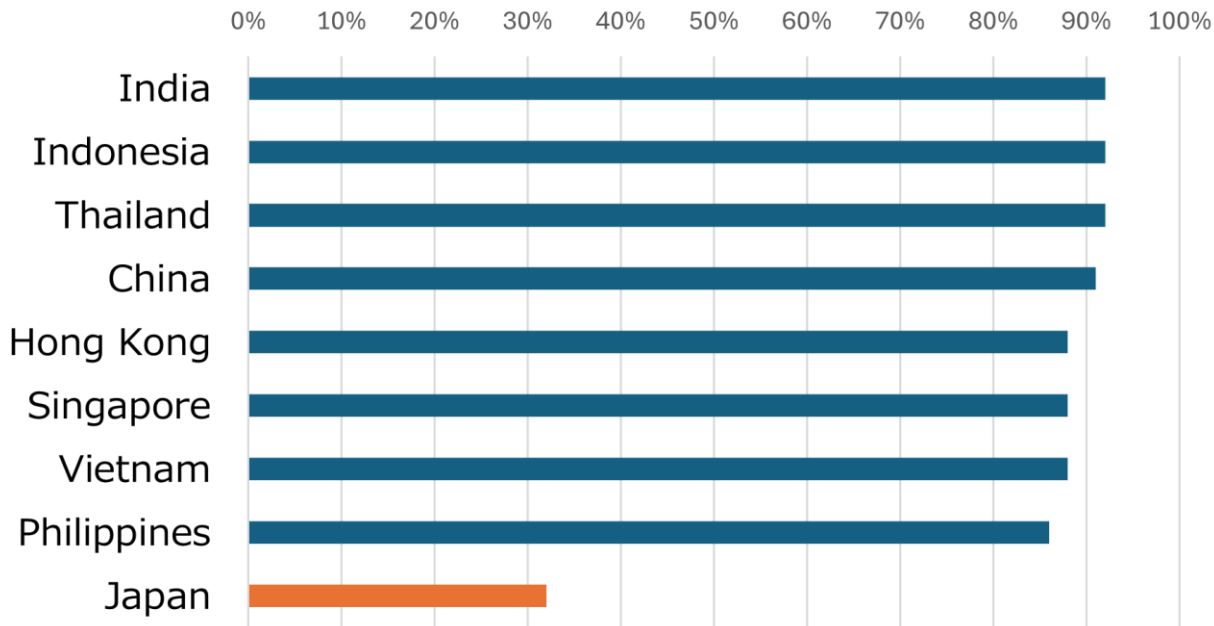

An underwater scene with a blue color palette. Sunlight rays stream down from the top. In the center, two divers are swimming. The foreground and background are filled with various coral reefs and several fish of different species.

Dive the times, tackle issues, and co-create forward-looking solutions.

Dyve is a coined word combining Dive and Dynamics.

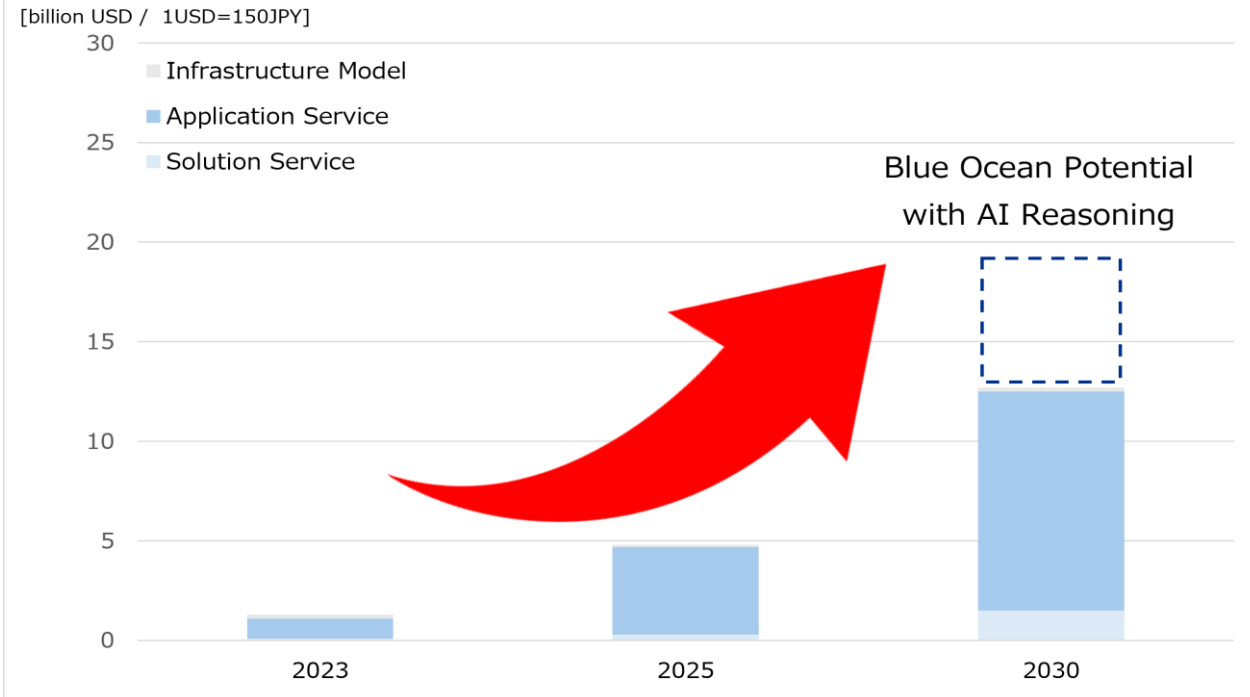

The Potential of Gen AI in the JP Market

Rate of business utilization of generated AI

Consulting Approach for Management Policy Formulation

Consulting Approach for Management Policy Formulation **with Gen AI**

Here are two distinctive examples of our works

①. Support for a Logistics Company

Generative AI was used to improve operational efficiency and accelerate decision-making.

②. Elementary School Lessons

The virtual character "AI Shinohara-san" served as the teacher in a lesson on ethical consumption, encouraging students' proactive thinking and communication.

① Logistics Company

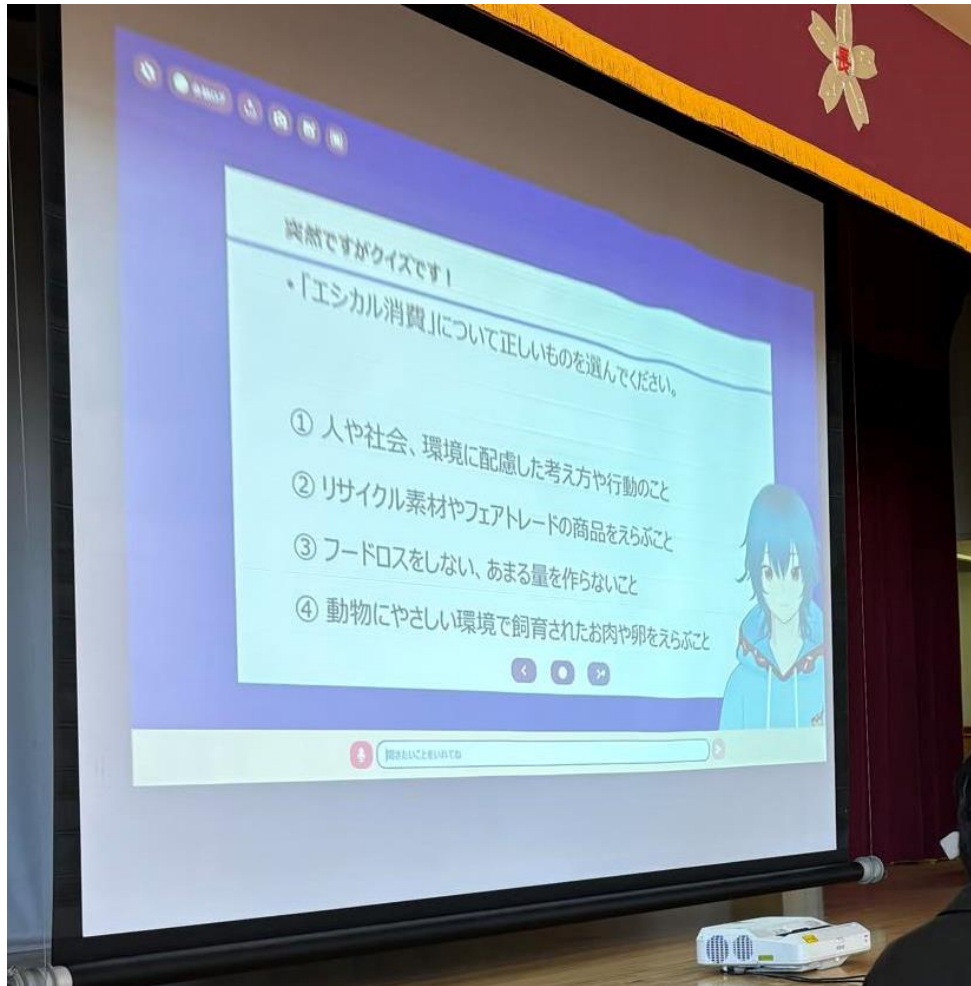

By utilizing generative AI, we achieved rapid consulting support, improved operational efficiency, enhanced internal information sharing, and expedited decision-making.

	AI Service
Utilized	 ChatGPT  Figma  Claude
Implemented	 Azure Open AI

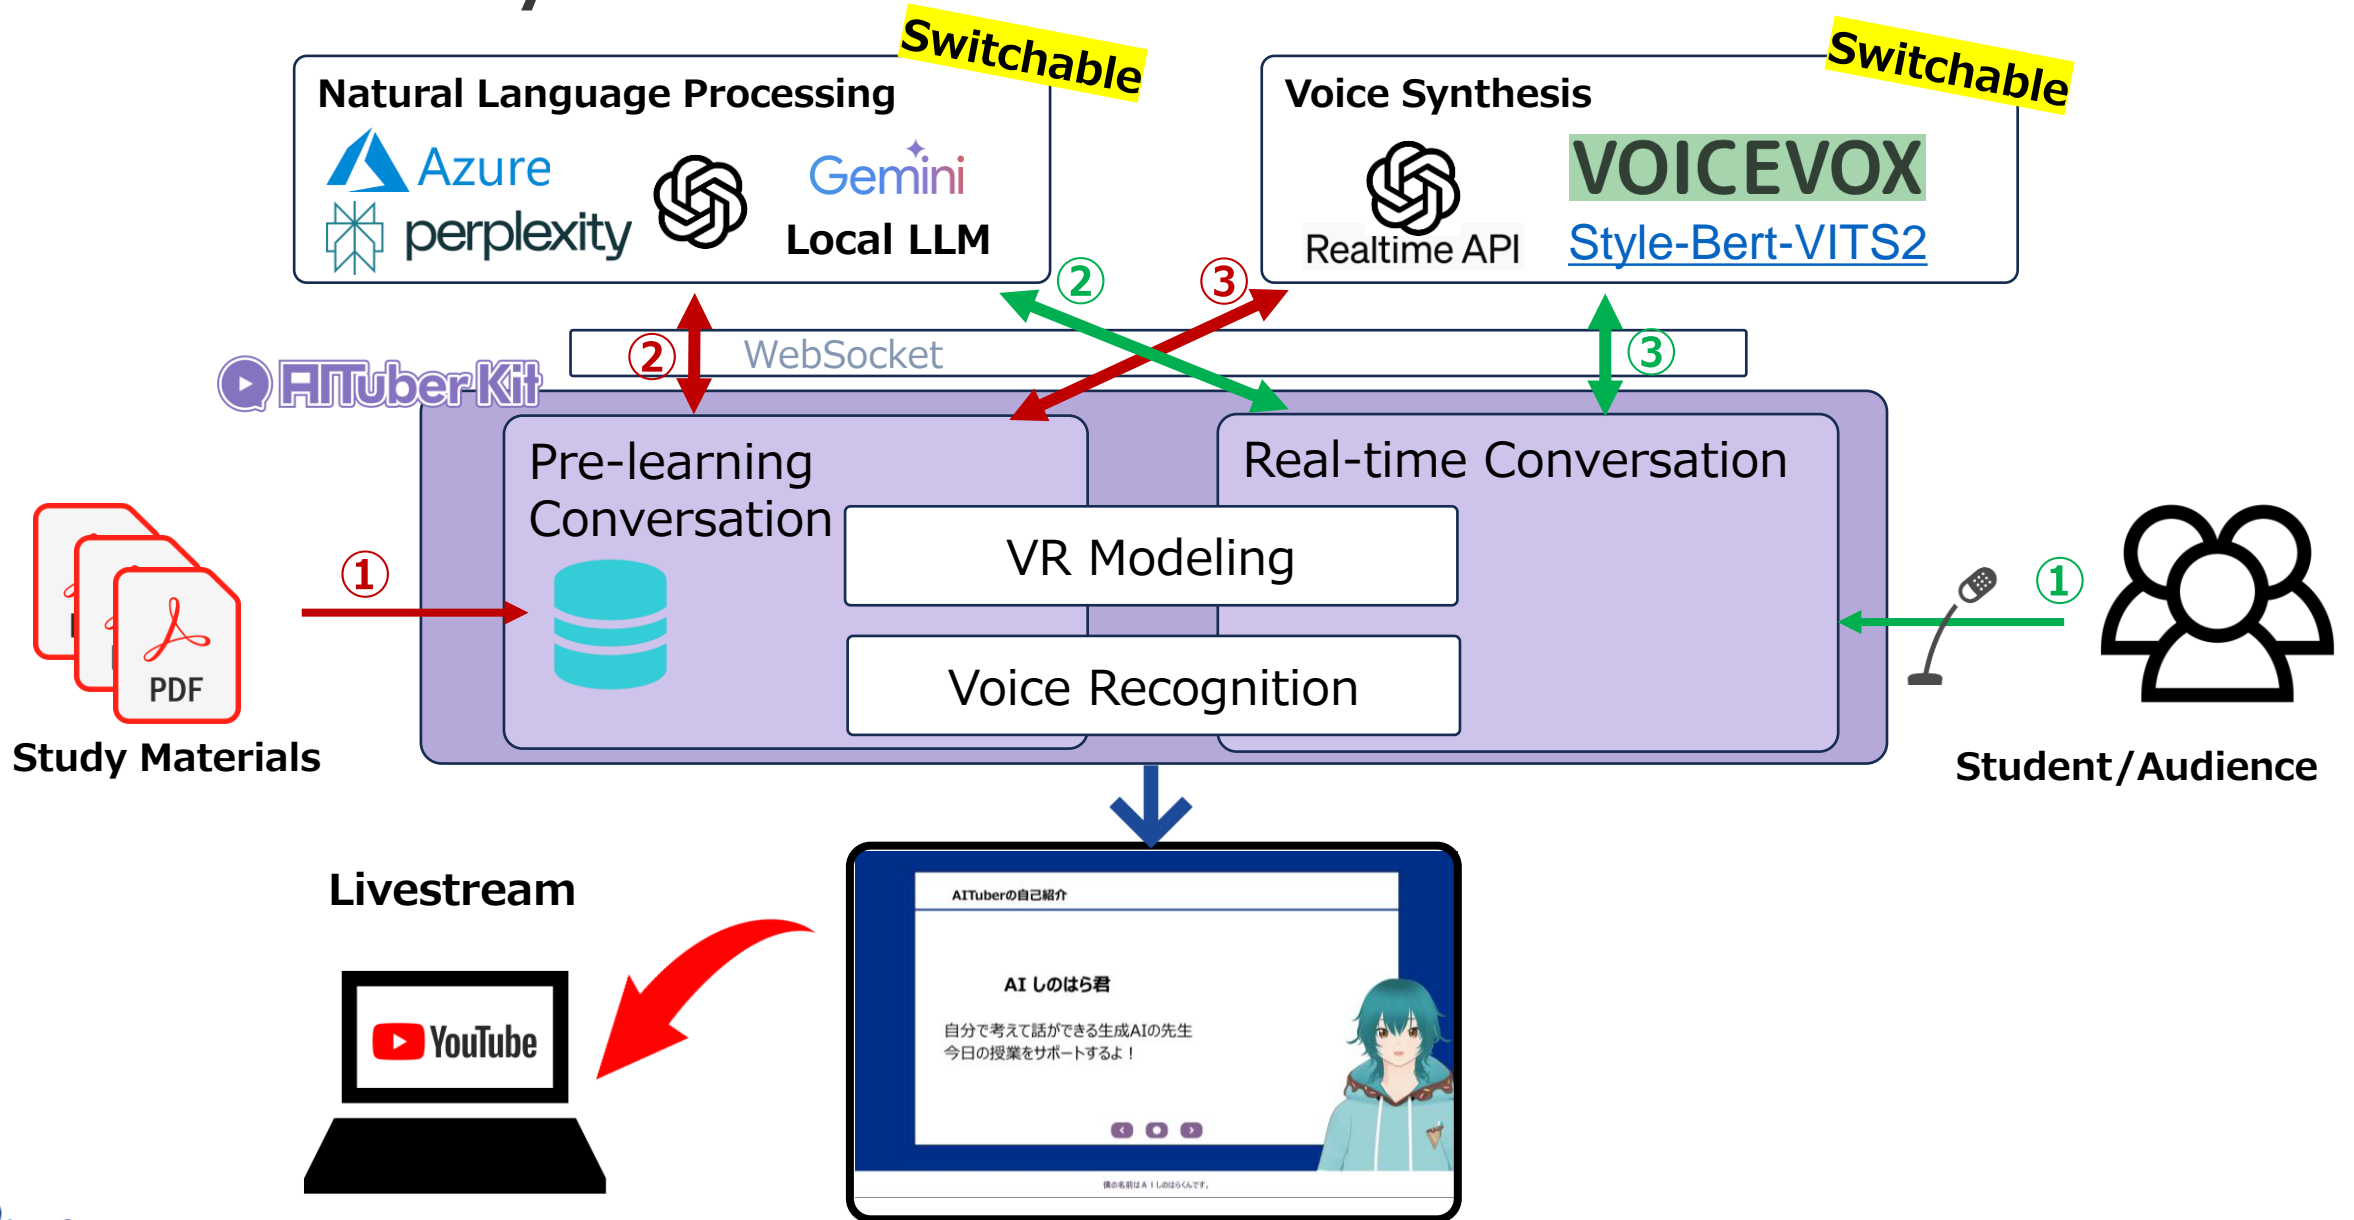

② School Lessons

Our Gen AI teacher gave a class to public school in Tokyo. AI-powered lessons with quizzes boosted student motivation and interest more than regular classes.
