

PTC MEMBERSHIP

Recognized as PTC, we are the global non-profit membership organization promoting the advancement of information and communication technologies (ICT) in the Pacific Rim, the most dynamic geography of the world, spanning over 40 nations.

As a **membership organization**, PTC mobilizes global leaders in telecommunications and information technology industries so they can drive the development and deployment of ICT across the Pacific region and beyond.

As a **non-profit**, PTC is dedicated to educating professionals, while sparking and guiding conversations and collaborations, setting the stage for the deployment and growth of ICT, throughout the region and beyond.

As a **global organization**, PTC engages the broadest community of professionals, organizations, technologists, researchers, and influencers, who together ensure progress in our industry while improving the quality of life in Pacific Rim communities.

CONNECTIONS OPEN THE WORLD. OPEN ACCESS. OPEN MINDS. OPEN DISCUSSIONS. OPEN MARKETS.

WHAT TO EXPECT

PTC is a rich community, active every day of the year. Helping our members innovate and grow advances in our industry. Helping nations develop infrastructure that changes lives.

Business strategies, such as moving beyond ping, power, and pipe, to profitably participate in the exploding digital economy

Business and partner development between startups, carriers, equipment and service providers, integrators, and academic institutions

Emerging technologies, such as SDN/NFV and optical satellites

Current issues, such as net neutrality, cybersecurity, and privacy

Public policy strategies and best practices, such as regulatory frameworks that balance the needs of consumers, businesses, carriers, and governments

Societal objectives, such as sustainability, women in leadership, and closing the digital divide by reaching the last billion

TELECOM

Mobile, wireline, subsea, satellite, and solar-powered drones.

ICT

IT, cloud, edge computing, the Internet of Things, cybersecurity, privacy, and connected applications, products, services, and solutions.

BUSINESS

Theory, strategy, and execution for commercial profitability, development of innovative ideas, the role of government regulatory bodies, and the achievement of societal goals.
